Vegetarian*

**SCCCADE Dinner Meeting - June 6, 2007**  
*Santa Clara County Chapter of the American Association of Diabetes Educators*

Educational Program: Lecture and Discussion

**"ADOPT"**  
**A Diabetes Outcome Progression Trial**

Presented by:

David L. Peterson, MD  
Internal Medicine, Endocrinology and Diabetology  
Good Samaritan Hospital  
Attending Physician, Endocrinology Clinic  
Santa Clara Valley Medical Center

Objectives:

1. Learn the long-term efficacy of monotherapy with rosiglitazone on glycemic control.
2. Learn the progression of pathophysiological abnormalities associated with type 2 diabetes treated with rosiglitazone as compared to metformin or glyburide monotherapy.
